# ABOUT AstralPool

AstralPool is committed to the design, manufacture and distribution of systems and components for swimming pools – residential and commercial pools – as well as for areas such as wellness, through a large number of branch offices and warehouses located worldwide.

AstralPool belongs to the Fluidra Group, a more than 40-year experience Spanish multinational group that specializes in developing sustainable applications for the conservation, handling, treatment and enjoyment of water. Fluidra's products bring to the users other benefits apart from the functionality and cover the whole cycle of water in search of a neutral water balance.

### **A WORLD OF SENSATIONS**

THE ART OF THE FINEST HYDROMASSAGE. A place where you can immerse yourself in a world of sensations; a place where you can experience the highest level of wellbeing; a place of intense pleasure experienced not only by your body but also by your mind; a place where you can sit back and watch life go by; a place where the senses come before anything else.

## PACIFIC 50

### A COMPLETE RELAXATION CIRCUIT

Our spas have been designed in order to offer you total comfort. Every seat, every lounger has been designed with your body in mind. The ergonomics of our spas and the strategic positioning of the water jets allow the spa to target key points on your body. The whirls of water and the bubbles act on your body's muscles. An intermittent massage, the delicate touch of water will soon relieve all tensions in your back. You can create your own personalised massage as the water whirls and bubbles can be programmed to suit your taste. The jets of water are pumped out by an adjustable nozzle that you can use to alter the massage range.

### **WATER: FOUNTAIN OF HEALTH**

PICTURE THE BEST PLACE TO BE SWEEPED AWAY BY SENSATIONS. Take in the infinite blue sky above your terrace or garden, breathe in the fresh air of a starry night, immerse yourself in 37 degree water shimmering with sparkles of light and covered by a layer of steam, and allow thousands of bubbles to envelop your body and cover every inch of your skin. Delicate massages are performed on the back, torso and nape of the neck, in order to provide total relaxation: peace of mind and infinite wellbeing for your body.

### **BENEFITS OF HYDROTHERAPY**

For many centuries now, the benefits of hydrotherapy have been known to mankind. Spas are one step up from the bath. They have been created to provide your body with all the relaxation and pleasure that water can offer. Immerse yourself in the magic of the spa; the water gives your muscles a pleasant massage, while your skin is caressed by thousands of soothing bubbles, your body temperature increases slightly, your circulation is stimulated, your muscles relax, your body floats, your skin perspires, invigorating bubbles alleviate muscle pain, and your body and mind let go of stress, nervous tension and daily worries.

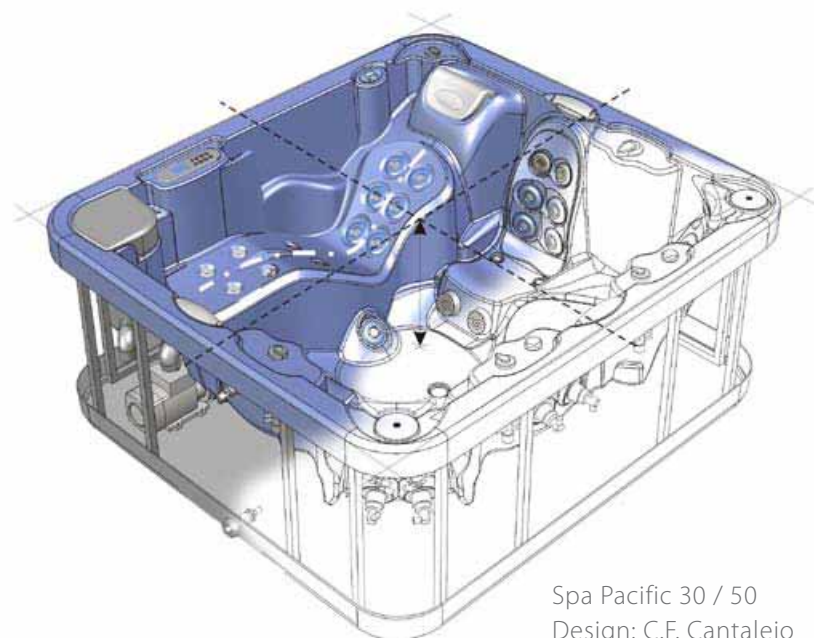

## THE ONLY THING YOU HAVE TO DO IS RELAX...

We'll do the rest

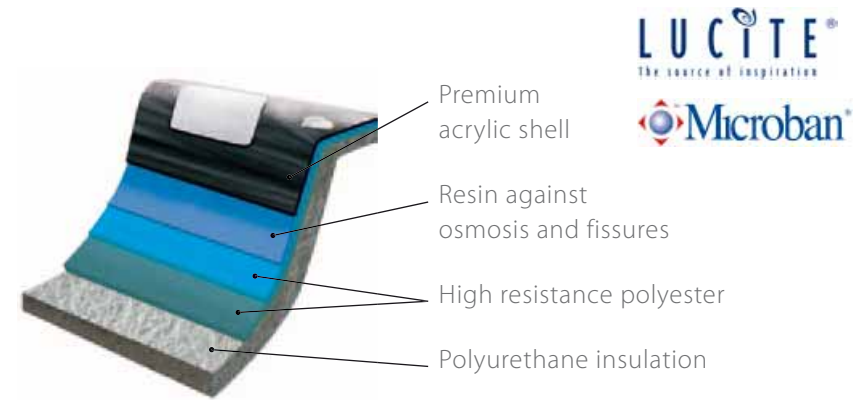

AstralPool implements the latest technology in ergonomics in the design and creation of its hydromassage tubs. During the design process, we leave no detail to chance.

We equip our spas with the best jets, the best control panels and other accessories. Everything is strategically put together so that we can offer you the best possible product.

Design

# Swim, practice water aerobics or relax

The **Swimspa Mediterranea** offers a place where you can swim or exercise in the water. For swimming, the pool has jets that create a strong current with an easily adjustable intensity that make it adaptable to any user. In very little space you will be able to obtain all the benefits of a large lap pool. In addition to laps, you will also be able to do many water exercises, such as aquagym, in your Swimspa Mediterranea, which also offers many health benefits: it increases circulation, helps correct posture, tones muscles, improves respiration, improves flexibility and strength, improves cardiovascular conditioning and provides deep relaxation... And all of that with the safety of exercising in the water, without the risk of falls or injuries.

# THALASSA

The **Thalassa** spa is one of the new private, built-in spas in the Spa & Fun range. The design is based on one of our star products, the Pacific 30 portable spa. A spa with soft, elegant lines that will enable you to enjoy unforgettable moments with your friends and family.
